SUBJECT No. 183.

Improvement to Shimoga Town.

Messrs. A. Ananthiah, Shimoga Taluk; A. Shamanna, Shimoga Municipality and C. Subba Rao, Shimoga District Board.

Mr. C. Subba Rao.—The Shimoga Municipality is trying its level best to improve the Shimoga town in the direction of water supply, drainage etc. Government are aware that the Municipality has taken a loan for these works and the Municipality yet wants more money. We have to pay contribution for the Thirthahalli bridge and as we have no money, we were on the point of issuing a prospectus for raising a loan. In the meantime, the State Loan at 6¼ per cent was advertized and it became impossible for us to raise the proposed loan at 6 per cent. Moreover, the local people have contributed substantially to the State Loan and it is impossible for them to subscribe again for our loan. In these circumstances, Government might give us a loan at 5 per cent, repayable in 25 years. The expenses of the Municipality have increased; their liabilities are still increasing but they are called upon to fulfil urgent needs of the town. The Tirthahalli bridge for which a large part of the loan was wanted is an important work and through this bridge, Kadur and Shimoga districts will be connected and trade will further improve. We may go further and ask Government to give a subvention to the Municipality. The only consideration for this subvention is that, though it is not usual for any municipality to contribute towards a Public Work Department bridge, we are going to do it.

Mr. Ananthiah.—There is likely to be an objection to raising a loan on the score of increased expenses to the municipality without resources. But we have resolved to find other means of increasing our revenue to meet increased demands in various directions.

Dewan.—The matter will be considered on receipt of proposals.
